

Why should I win a piano?

The reason I should win a piano because I'm a great learner. I like to play great music, and I never had a piano before. If I win the piano I will play for the elderly, my family, and my friends. When a holiday comes, like Christmas, Thanksgiving, Mother's Day, I could play some music on these holidays. I could also play for birthdays. I'll play music for many different people. Then when I grow up I will be a music teacher. After that, I will get married. When I get married I will be a scientist and in the past I would have played the piano. My teachers would never forget me because I would play for them when they were mad.

The end!

And have a good holiday and don't eat a lot of food on Christmas.
